Professional Summary

Working diversely different fields with vastly distinct demands has helped me develop a love of problem solving and tackling new challenges. Learning new skills and techniques is something that I can do quickly and generally have fun mastering. I am a great asset to any team. I excel at troubleshooting, organization, adherence to company values and operations, and improving on methods of operations when appropriate.

Skills

- Attention to detail
- Problem Solving
- Fast Learner
- Work well with others
- Work well autonomously
